Artistar Jewels, to discover the wonderful world of jewelry

Artistar Jewels, art and design in the precious world Artistar 2017 Jewels is a true collection of unique pieces made by artists / international designers. A unique book containing small and precious works of art. Not only jewels, to be clear. In the book are "told" 366 creations by 142 artists / designers. It is, to be precise, the fourth edition of the genre. A work challenging and probably unique. Among the special features of this edition we include: the series of seven brooches Silver Art Limited Edition critic Gillo

Artistar Jewels, art and design in the precious world

Artistar 2017 Jewels is a true collection of unique pieces made by artists / international designers. A unique book containing small and precious works of art. Not only jewels, to be clear. In the book are "told" 366 creations by 142 artists / designers. It is, to be precise, the fourth edition of the genre. A work challenging and probably unique. Among the special features of this edition we include: the series of seven brooches Silver Art Limited Edition critic **Gillo Dorfles** for San Lorenzo, creations signed by a famous Italian artist **GianCarlo Montebello** and contemporary jewelry Dutch artist **Philip Sajet**.

Artistar Jewels, a high quality publication

The book can be found in all Italian bookshops and in those of the major European capitals. As you can understand it is a qualified international collection of established artists, but also young creative industry. Certainly you can not miss for those who love this world, or in any way directly interested in everything that goes around designers and small productions and large Italian companies and international. What I liked about **Artistar Jewels**? Professionalism. It is a valuable and accurate collection of players in the industry. Elegant and cared for the boards of the works and also excellent graphics choice. A nice document to store and browse with pleasure.

My five favorite jewelry

And of all the films? I will not hide my preferences. Here is a short list my five favorite jewelry die. Five jewels to remember.

- 1) **Chantal** (necklace) by **Tina Lattarulo** (Italian painter and sculptor). Chantal has six strings of pearls of different lengths that meet three silver wings. The symbol of the wings is also the logo and signature of Alas Art. It combines elegance and refinement.
- 2) **Death of the coral reefs** (Necklace) of **Sihua Ariel Chen** (Singapore fashion designer). It is an adjustable necklace. Silvery crystals pointy end that symbolically represent the reefs destroyed by oil. A strong ecological message. A beautiful line and great achievement.
- 3) **Rubber Soul** (Necklace) of **Liisa Gude Deberitz** (Norwegian jewelry artist). Handmade and realized with silver and rubber. Really unique. Charming.

4) **Lace Ring** (Ring) The **Gabrielle Friedman** (Nashville, United States). Realizzato with a particular technique, with dripping wax and then melted in 10K gold with a diamond stone of three millimeters set in one of the rings. Each piece is unique. It is close to perfection. Very beautiful.

5) **Nodes** (Necklace) of **Simona Girelli** (Italian designer). It is not a simple necklace, but a real sculpture. Magic and elegant necklace made of thick chain of polystyrene rings purple. And 'one piece. Wear it.

I assure you it was not easy to locate only five jewels. Jewelry? But what I say. They are little masterpieces to be admired in the volume **Artistar Jewels** , an annual publication that promotes contemporary jewelery internationally.

Five photos (five favorite jewelry) I produce in this article are taken out volume **Artistar Jewels** .
